Overall Length:

10.000 inches

Overall Height:

0.260 inches

Overall Width:

6.050 inches

End Application:

Central office, telephone an/ttc-39d

Special Features:

Dmajor components: capacitor 106; connector 1; crystal oscillator 2; diode 52; fuse 2; microcircuit 127; printed wiring board 1; relay 4; resistor 79; resistor network 10; thermistor 4; transistor 5

Precious Material And Location:

External surfaces wire leads and pins gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
