Overall Length:

10.000 inches

Overall Height:

0.260 inches

Overall Width:

6.050 inches

End Application:

Central office, telephone an/ttc-39d

Special Features:

Major components: capacitor 75; connector 1; diode 44; fuse 2; led 2; microcircuit 37; oscillator xtal 3; printed wiring board 1; resistor 90; resistor network 15; thermistor 2; transformer 2; transistor 5

Precious Material And Location:

External surfaces wire leads and pins gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
