Overall Length:

6.000 inches

Overall Height:

0.500 inches

Overall Width:

2.000 inches

End Application:

An/tsc-107 qrp central communication 5895-01-121-3736; receiver-transmitter radio rt-9000af 5820-01-334-1218; printed circuit reference driver

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Major components: capacitor 12; diode 9; coil 2; microcircuit 2; printed wiring board 1; resistor 20; transistor 4; unpackaged unit weight: 0.500 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
