Overall Length:

12.000 inches

Overall Height:

0.670 inches

Overall Width:

8.720 inches

End Application:

Automatic test equipment

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Pwb 1; ckt will drive inductive loads through the range of -50ma to +50ma, in addition to the drive, the board provides cur sense on all chan w/cur to digital conversion done on board, cur loopback to an int load is provided for offline module self-test, a status/module id register is provided for online self-check oper, front panel indicators are provided on the front panel for ext measurement of the drive cut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
