Body Style:

Double flair entry

Overall Length:

3.500 inches

Overall Height:

0.330 inches

Overall Width:

0.300 inches

Unthreaded Mounting Hole Diameter:

0.067 inches all mounting facilities

End Application:

Power supply assembly, fleet electronic warfare support group peculiar equipment

Mounting Facility Type And Quantity:

2 unthreaded hole all mounting facilities

Material:

Copper alloy 172

Material Specification:

Qq-c-533 federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-n-290, class 1, grade b federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A03600
