Overall Length:

15.000 inches

Overall Height:

16.000 inches

Overall Width:

0.750 inches

End Application:

TEST-ST-ATI-ON,E

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Functions as a universal peripheral controller; provides control/interface between the dps/6-h1750a computer bus and upto four ieee-488 compatible interface bus adapters

Unpackaged Unit Weight:

1.750 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
