Overall Length:

17.000 inches

Overall Height:

1.000 inches

Overall Width:

12.000 inches

End Application:

An/fsq-151 afscn/cue

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly, integrated logic control and satellite buffer (ilc.2s), with c3 firmwar (fw)

Special Features:

Electrostatic discharge sens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
