Circuit Card Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5998-01-354-3283

Overall Length:
17.000 inches
Overall Height:
1.000 inches
Overall Width:
12.000 inches
End Application:
An/fsq-151 afscn/cue
Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Product Name:
Circuit card assembly, integrated logic control and satellite buffer (ilc.2s), with c3 firmwar (fw)
Circuit card assembly, integrated logic control and satellite buffer (ilc.2s), with c3 firmwar (fw) Special Features:
Special Features:
Special Features: Electrostatic discharge sens
Special Features: Electrostatic discharge sens Shelf Life:
Special Features: Electrostatic discharge sens Shelf Life: N/a
Special Features: Electrostatic discharge sens Shelf Life: N/a
Special Features: Electrostatic discharge sens Shelf Life: N/a Unit Of Measure:
Special Features: Electrostatic discharge sens Shelf Life: N/a Unit Of Measure: Demilitarization:
Special Features: Electrostatic discharge sens Shelf Life: N/a Unit Of Measure: Demilitarization: Yes - demil/mli
