Circuit Card Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5998-01-354-9215

End Application:
Milstar; instrument control
Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Special Features:
Component quantity: printed wiring board 1, capacitor 112, resistor 77, diode 11, transistor 4, integrated circuit 71, connector 3
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
Yes - demil/mli
Filg:
A511k0
