Overall Length:

5.500 inches

Overall Height:

2.300 inches

Overall Width:

4.000 inches

End Application:

Afscn/cue

Product Name:

Module, 16 bit digital, input/output (i/o)

Special Features:

Assumes address of slot into which it is plugged, permits cm4400 to perform arithmetic/logic operations directly with i/o modules, functions incl signal swtch interface, line console interfc, multipler intfc, demultiplexer intfc, bit error rate test intfc; nha p/n 275397-13 station controller with control panel

Unpackaged Unit Weight:

1.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
