Overall Length:

6.400 inches

Overall Width:

5.780 inches

End Application:

Cp-1451/ayq-13 stores management computer

Product Name:

Circuit card assembly - remote terminal/bus controller

Special Features:

4components include connector 2; extractor (right/left hand) 1 ea.; connector keying external key 2; heatsink 4; capacitor 15; transistor semiconductor 1; resistor 7; crystal unit 2; microcircuit 25; low power pulse transformer 2; mounting pad 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
