End Application:

Have quick a-nets

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Compensation network, matched assembly

Special Features:

Esd, nha 171467, used on the e-3, an/arc-204 (v) radio set

Specification Data:

61742-171554g01 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
