End Application:
Aircraft model f-18
Product Name:
Board assembly, electric
Special Features:
Components include pwb 1, current transformer 1, mounting pad 5, connector 3, linear microcircuit 1, integrated circuit 1, capacitor 4, resisto
32, potentiometer 3, diode 13, strap 1, transistor 4
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
