Overall Length:

6.750 inches

Overall Width:

7.500 inches

End Application:

Dsests abg440

Features Provided:

Electrostatic sensitive

Product Name:

Circuit card assembly

Special Features:

C/printed wiring board 1; microcircuit 35; resistor 45; capacitor 65; semiconductor device 35; transformer 1; connector 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
