Overall Length:

7.200 inches

Overall Width:

3.100 inches

End Application:

Dsests abg440

Features Provided:

Electrostatic sensitive

Product Name:

Circuit card assembly

Special Features:

C/printed wiring board 1; microcircuit 10; semiconductor device, opt-coupler 2; resistor network 1; oscillator, 32mhz 1; semiconductor device, transistor 4; relay 2; resistor 16; capacitor 29; transformer 2; connector 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
