Overall Length:

9.250 inches

Overall Height:

0.625 inches

Overall Width:

6.250 inches

End Application:

Outside plant

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Muldex unit 8/34 mbit/s

Special Features:

Lmultiplexside output is 34368 kbit/s + or - 20 ppm; multiplexside input and demultiplexside output is 8448 kbit/s + or - 30 ppm; supply voltage +5v; power consumption <3.5 w; temperature range is -5 to +45 degree c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
