**End Application:**

An/fsm-27, fps-92 bmews

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Board, parallel interface

**Special Features:**

Main purpose is to provide the communication link between the chassis and the computer-resident driver bd

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A511k0
