**Overall Length:**

6.550 inches

**Overall Height:**

0.335 inches

**Overall Width:**

4.125 inches

**End Application:**

Inertial navigation unit; part number tn72

**Special Features:**

Provides timing and control signals for memory and programming operations and instruction execution

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A511k0
