Overall Length:

6.550 inches

Overall Height:

0.335 inches

Overall Width:

4.125 inches

End Application:

Inertial navigation unit; part number tn72

Special Features:

Provides timing and control signals for memory and programming operations and instruction execution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
