Overall Length:
6.550 inches
Overall Height:
0.335 inches
Overall Width:
4.125 inches
End Application:
Inertial navigation unit; part number tn72
Special Features:
Provides timing and control signals for memory and programming operations and instruction execution
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511k0
