Overall Length:

10.000 inches

Overall Height:

7.4000 inches

Overall Width:

0.800 inches

End Application:

Lantirn

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Two axes controller for vme bus computers

Special Features:

134, 000, 000 pulses (porm 67, 000, 000); control provides accelleration to an optimum speed followed by a constant velocity and a controlled decelleration to a stop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
