End Application:

Agm-130, captive air crew training missile

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly, discrete i/o modification, captive aircrew trainer

Special Features:

Altered item; p/n vf024345-101, altered by removing resistor, installation of jumpers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
