End Application:

F-15i

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly, side a, stroke-raster converter mono

Special Features:

Nha p/n 6378335, module assembly stroke-raster converter; maximum comp hght 0.230 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
