Circuit Card Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5998-01-459-8032

Overall Length:
14.430 inches
Overall Width:
8.660 inches
End Application:
F-15i
Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Product Name:
Circuit card assembly, expanded memory aoa proc/rf timing
Circuit card assembly, expanded memory and proc/n timing
Special Features:
Special Features:
Special Features: Used on p/n 629
Special Features: Used on p/n 629 Shelf Life:
Special Features: Used on p/n 629 Shelf Life: N/a
Special Features: Used on p/n 629 Shelf Life: N/a
Special Features: Used on p/n 629 Shelf Life: N/a Unit Of Measure:
Special Features: Used on p/n 629 Shelf Life: N/a Unit Of Measure: Demilitarization:
Special Features: Used on p/n 629 Shelf Life: N/a Unit Of Measure: Demilitarization: Yes - demil/mli
