**Overall Length:**

6.500 inches

**Overall Height:**

4.250 inches

**End Application:**

Advanced protection system, siemens building technologies, cereberus division, model mxl series

**Product Name:**

Controllable relay module

**Special Features:**

Zfour programmable relays; each relay contains one set of spdt (form-c) contacts; contact rating 2.0 amps 30.0 vdc/120.0 vac resistive; plugs into 1/2 slot in mom-4 or mom-2 expansion card cage; relay configuration supervised coil normal state de-energized; supervisory current 15.0 milliamps; active current 18.7 milliamps per relay energized; 75.0 milliamps all relays energized; on board microprocessor; fully programmable time or event based operation; both manual and automatic control

**Precious Material And Location:**

Edge connectors gold

**Specification Data:**

0a0e0-nfpa72 professional/industrial association specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
