End Application:

Sonar detecting set

Features Provided:

Arc quenching

Product Name:

Penetrator assembly, cable

Special Features:

Material: aluminum alloy bar, 6061, qq-a-255/8, temper t6, braze in accordance with mil-b-7883, type v, grade b, using find no. 6, air cool, finish: hard anodize, seal for corrosion protection, varnish, ink, stencil, black, brazing alloy, filler metal, .062; paint, epoxy-polyamide, color 27875 of ded-std-595, white semigloss, paint, epoxy-polyimide primer, tube, penetrator (.60 of 4.000)

Specification Or Standard:

Alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
