**End Application:**

Sonar detecting set

**Features Provided:**

Arc quenching

**Product Name:**

Penetrator assembly, cable

**Special Features:**

Material: aluminum alloy bar, 6061, qq-a-255/8, temper t6, braze in accordance with mil-b-7883, type v, grade b, using find no. 6, air cool, finish: hard anodize, seal for corrosion protection, varnish, ink, stencil, black, brazing alloy, filler metal, .062; paint, epoxy-polyamide, color 27875 of ded-std-595, white semigloss, paint, epoxy-polyimide primer, tube, penetrator (.60 of 4.000)

**Specification Or Standard:**

Alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
