Overall Length:

4.250 inches

Overall Height:

0.350 inches

Overall Width:

1.200 inches

End Application:

Raid assembly; w/s: ticonderoga class cg (47)

Product Name:

Single in-line memory module

Special Features:

16m x 32 high density dynamic ram memory module; consists of 8 cmos 16mx4 drams in soj 400mil packages assembled on 72 pin printed circuit board; 0.1 uf decoupling capacitor is mounted on pcb for each dram to reduce noise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
