Overall Height:

7.200 inches

Overall Width:

7.300 inches

End Application:

Used on lazer warning system-armored vehicles

Special Features:

The lower housing assembly consists of an aluminum alloy, all weather ruggedized base for the laser sensing detectors; it provides support for signal processing, power distribution, and converter assembly circuitry; the kit also includes a housing assembly gasket, flat washers, esd warning label, and pan head screws; failure rate of spares usage prediction is 0.0000435

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:
