Overall Length:

8.500 inches

Overall Height:

4.530 inches

End Application:

Sim/stim a0e6 trainer, 4630001

Product Name:

Eight-bit optically-isolated ac input cards

Special Features:

Functional description: the ac input card contains eight individual, optically-isolated input channels, the operation of the card is controlled by rtp transfers, transfers applicable to the ac input card are: command, test, input, interrupt query; options for this item: 120 vac, 48-62 hz input with 2 msec filters; functional characteristics: input voltage 120 vac; input thresholds logic 1 p/m 72 vrms; input voltage 198 vrms; steadystate voltage 155vdc; input current 9.0 ma; filter options 2 msec; input frequency 48-62 hz; physical specifications: operating temperatures 0 to plus 55 degrees c; storage temperatures minus 20 to 85 degrees c

Unpackaged Unit Weight:

0.375 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
