Overall Length:

12.000 inches

Overall Height:

0.062 inches

Overall Width:

7.450 inches

End Application:

An/fsq-151; command sync delay

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Base band assembly unit

Special Features:

T.O. 31s7-4-81-1; functional description, assemble the uplink sgls, ie prn ranging, sgls command and m22 subscriber, and to proportion relative and amplitude for carrier modulation index control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
