End Application:

F-16

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly, inu/fault drive/logic

Special Features:

Used on battery charger control unit p/ns 711150-9, 713290-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
