End Application:

Cds-20 clock distribution system

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Model Id3 line driver card

Special Features:

Cds-20 operates with 1 to 14 of the model Id3 line driver cards, each of which can select any one of 21 base frequencies; further dividing the selected frequency produces 8 sub-frequencies, each of which is selectable for the 6 different output driver circuits; each of the 6 Id outputs may be wired to provide a single balanced output or two unbalanced outputs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
