End Application:

F-22 raptor

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Module, processor, countermeasures signal

Special Features:

Goes in airborne equip and decides which countermeasures to use. Approx 6"x7"x1" and enclosed in metal case which slides into alr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
