**End Application:**

F-22 raptor

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Module, processor, countermeasures signal

**Special Features:**

Goes in airborne equip and decides which countermeasures to use. Approx 6"x7"x1" and enclosed in metal case which slides into alr

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
