End Application:

Pcs running windows 2000/nt/me/9x, power macintosh computers, sun ultra workstations, and dec alpha workstations

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Pci-gpib for sun sparystation

Special Features:

Onboard bus master dma controller ensures no microprocessor interruption for data transfers; transfer rates over 1.5 mbytes using ieee 488.1 handshake; over 7.7 mbytes using hs488

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
