**End Application:**

Test set

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Circuit card assembly, improved low frequency measurement

**Special Features:**

Next higher assembly-iais test station, p/n 2215000-103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
