End Application:

Fire door rectifier

Product Name:

Twelve-pulse firing board

Special Features:

Panel mount; for 12-pulse converters or controllers; single board/600vac; employs a six-phase, phase-locked- loop to achieve precise 30

degree equidistant gating and excellent bandwidth

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A511k0
