End Application:

Computer hard drives with windowsoperating systems

Product Name:

100mhz, 100ms/s 8bit digitizer

Special Features:

2 channels simultaneously sampled at 8-bit resolution; 100 ms/s real time and 2.5 gs/s random interleaved sampling; plus or minus 25 minivolt to plus or minus 25 volt input range with dc offset of plus or minus 37 volt; 16 or 32 mb memory buffer with multirecord capture mode; timestamping of records to 2 ns accuracy; 1 megohm or 50 megohm input impedance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
