End Application:

Sam standard

Special Features:

Operating temperature zero to 50 degrees c; two synchro/resolver measurement and two synchro/resolver simulation channels; 47 hz to 2 khz frequency range; 2.2 va outputs; programmable speed ratios; two-speed or dual single inputs and outputs; transformer isolated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
