Overall Length:

6.500 inches

Overall Width:

4.970 inches

End Application:

F-16 riais

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly, power quality monitor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
