End Application:

Machinery alarm system, ge fanuc automation north amer

Product Name:

Field control analog output module, current/voltage, 4 channel

Special Features:

Output range - 4-20 ma and 0-10 v or 0-20 ma and 0-12.5 v; current load impedance - 0 ohms min, 600 ohms max; power range 20-29 vdc, 5% maximum ripple

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
