End Application:

Machinery alarm system, ge fanuc automation north amer

Product Name:

Field control analog input module, current, 16 channel

Special Features:

Input range - 0-25 ma; input impedance - 250 ohms; operating temperature - 0-55 degrees c ambient; resolution - 16 bits (unscaled)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
