End Application:

Starter, control pnl; p/n sci

Special Features:

Controllers are fully programable direct digital, totally compatible with the network 8000 interated building system, utilizing to make compatible with most any control strategy; typical applications include central station air handlers, vav air handlers, fan coil units, unit ventilators, cooling yowers, and convective radiation loops; controller pcb with clock; panel mounting with real clock and/or wall mounting

Terminal Type And Quantity:

1 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500n0
