Overall Length:

4.220 inches

Overall Height:

4.310 inches

Overall Width:

3.600 inches

End Application:

Eurofighter ef2000

Product Name:

Analog output module

Special Features:

Eight 0-10 v outputs; 0.2 v over-range ability; 12-bit resolution digital-to-analog converters; onboard diagnostics, including current limit indicators; 3000 vrms input-to-output isolation; double insulated for 250 v safe working voltage; operating temperature -40/+70 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
