Overall Height:

132.0 millimeters

Overall Width:

35.0 millimeters

End Application:

1769-adn devicenet i/o module or 1500 micrologix controller assembly

Product Name:

Compact input-output module

Special Features:

0-h0 degrees c operating voltage; 24 dc (sink or source) voltage category; 10-30vdc at 30 degrees c and 10-26vdc at 60 degrees c operating voltage; 8.0 ms on/off maximum signal display; 1.5ma maximum off-state current; 16 inputs (2 sets of 8); 115 ma at 5 v maximum bus current load

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
