Overall Height:

132.0 millimeters

Overall Width:

35.0 millimeters

End Application:

1769-adn devicenet i/o module or 1500 micrologix controller assembly

Product Name:

Compact input-output module

Special Features:

0-60 degrees c operating tem; 85-265 v operating voltage; maximum continuous curent per output - 0.5 a at 60 degrees c and 1.0 a at 30 degrees c; maximum continuous current per module - 16 a; 8 outputs (2 sets of 4); normally open contact outputs; 125 ma at 5 v and 100 ma at 24v max. Bus current load

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
