Overall Length:

5.210 inches

Overall Height:

0.500 inches

Overall Width:

2.830 inches

End Application:

Used on computer interface controller w/switch

Product Name:

Interface controller driver-decoder board

Special Features:

Op temp m55/p85 degrees c; rs-485 bus; 5 vdc/30vdc; 122 ma per channel; 6 amp; data stored on 2 8-bit shift registers; drives lamps after decoding info from microcontroller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
