Overall Length:

8.000 inches

Overall Height:

1.200 inches

Overall Width:

6.800 inches

End Application:

Aerospace systems

Product Name:

32 channel amplifier module 200hz bandwidth

Special Features:

32 analog input channels; lowpass filtering; 333 ks/s sampling rate; programmable gain settings; ni-daqmx measurement services software to simplify configuration and measurements

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
