Major Components:

Proliant servers; high availability; management software; options; storage

End Application:

00554671 (28480), server, ml370 g5 rackmount; 400607-b21 (28480), server, ml370t g5

Product Name:

Smart array p400 controller

Special Features:

Pci bus is pcie x8; pci peak data transfer rate 2gb/s; channels 8 sas ports; connectors (external/internal) 0/2; drives supported (max) 18; cache 256mb ddr2-ram, with available bbwc upgrade and 512mb bbwc upgrade; i/o slot pci-express

Functional Description:

Hp smart array p400 controller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
